

Now in 3-D!

Enhance Learning Experience

Comprehensive product selection to meet any education display demands

World's #1 Selling DLP® Brand From \$449 to \$899

See back for Education Price List

Industry leading future-proof display

- Simple 3-D technology
- Ethernet asset management (RJ-45)
- Ultra-quiet operation, as low as 26 dB
- Safe shatter-proof lamps

Great color performance

- DLP® BrilliantColor™ technology
- 3-D color management

Affordable

- 10 Watt Speakers
- Integrated closed captioning
- 3 year standard warranty and 5 year DLP® chip warranty
- 1 year/1,000 hour lamp warranty (whatever comes first)
- Lower total cost of ownership
 - Filter-free operation
 - No color decay

Small Group Collaboration

GP1

MSRP \$649

\$549

- ♦ SVGA (800 X 600)
- ♦ 100 ANSI Lumens
- ♦ PC-less USB connectivity
- ♦ 20,000 hours lamp life warranty

There is a need in K-12 education on how to get kids to collaborate in small groups. BenQ has introduced the mini projector GP1 to address this purpose.

With the GP1 teachers can now load their instruction material in a USB Flash drive, break their classroom in small groups (between 3 to 4), and provide each group with a GP1 connected to the USB Flash drive; no PC required.

Students can clearly listen to the instruction with the integrated 2 watt speakers as they collaborate together and work in small teams. It's a true green product inside and out with 100% mercury-free 3LED technology, 70% recycled materials for packaging, 30% reduction in power consumption with less than 1W standby power.

Future-Proof Products

Small/mid-size classroom

Through July

MP626

\$589

~~MSRP \$799~~

- ♦ XGA (1024 X 768)
- ♦ 2500 ANSI Lumens
- ♦ Lamp life up to 4000 hours
- ♦ Simple 3-D
- ♦ Ethernet asset management (RJ-45)
- ♦ 10 Watt speakers

Short-throw

MP772ST

\$749

MSRP \$899

- ♦ XGA (1024 X 768)
- ♦ 2500 ANSI Lumens
- ♦ 3.3' projection distance for 82" image diagonal
- ♦ Lamp life up to 4000 hours
- ♦ Simple 3-D
- ♦ Ethernet asset management (RJ-45)
- ♦ 2 x 5 Watt speakers

Large classroom

MP670

\$899

MSRP \$999

- ♦ XGA (1024 X 768)
- ♦ 3000 ANSI Lumens
- ♦ Lamp life up to 4000 hours
- ♦ Simple 3-D
- ♦ Ethernet asset management (RJ-45)
- ♦ 10 Watt speakers

Engaging students further is a daily challenge for educators. BenQ is providing a solution to ensure that projectors purchased today can meet the evolving education demands for the future. With that in mind, BenQ has incorporated 3-D stereoscopic technology, Ethernet connectivity, and integrated 10 Watt Speakers.

3-D adds true depth perception to still imageries, objects, and movies. Now teachers and students can easily visualize the complex structure of a cell, spatially challenging geometrical structures, and historical landmarks within the convenience of your everyday classroom.

BenQ has also incorporated Ethernet RJ-45 capability for remote monitoring and control of projectors. It simplifies the difficult task of managing thousands of projectors remotely, as well as providing connectivity that allow the teachers to control the projector easily in the classroom without the use of a remote control.
